High Mileage Treatment

True Brand ® High Mileage Treatment is a concentrated blend of antioxidants, detergents, dispersants and lubricants formulated to fortify all grades of engine oil.

True Brand ® High Mileage Treatment enhances engine oil’s ability to reduce friction and wear on internal engine components. Special dispersants help keep piston rings, belts, hydraulic lifters and other engine components clean and free of sludge or deposits. It is Compatible with synthetic and petroleum—base oils.

Truth - Application / Directions

- Add entire content to crankcase (treat up to 6 qt.)
- Drive Vehicle for 15—20 min
- This formula is good for ALL synthetic and petroleum base oils.

Truth - Features / Benefits

True Brand ® High Mileage Treatment provides long lasting engine protection and helps maintain optimum performance for extended Engine Life. Advance antioxidants prevent oxidation and thickening of engine oil under even the most severe driving conditions.

- Reduces Friction and Wear under Extreme Load by up to 80% (Based on ASTM D2253 Falex test results).
- Greatly improves engine oil’s ability to resist oxidation breakdown. (Based on ASTM D4742 TFOUT tests, treated oil resisted oxidation five times longer than untreated.)
- Detergents and dispersants chemically combine with solid-combustion debris, preventing this debris from creating deposits on engine parts.
