HFM Supplement

True Brand Synthetic HFM formula is specifically designed to **convert** and **enhance** Dexron III® / Mercon® fluid into a highly friction modified ATF by incorporating additional friction modifiers.

The Synthetic Highly Friction Modified Transmission Fluid **Supplement** also incorporates a high quality **synthetic base stock** with SE (synthetic esters) which reduces heat, wear, and extends transmission fluid life.

Truth - Application / Directions

To be used **1 oz. per quart** with Dexron III® /Mercon® fluids when servicing transmissions that require HFM fluids such as Chrysler , ATF+3® (7176) & +4®(9602), Honda, Toyota, Mitsubishi and other highly friction modified ATFs.

Truth - Features / Benefits

True Brand HFM formula protects while coating the gears, and pumps. With regular maintenance it can prevent overheating and fluid oxidation keeping the valves and governors free.

- Eliminates the Need for Multiple OEM Fluids
- Extends Fluid Life
- Softens Hard Shifting
